

DARSHAN METI

SOFTWARE TESTER | QA ENGINEER

+61 425 290 469 | darshanmeti24@gmail.com | Darwin, NT, Australia

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Robert Bosch Engineering and Business Solutions Private Limited

Jun 2022 - Mar 2025

- Supported software quality throughout Agile development by reviewing changes, identifying defects, and verifying fixes before release.
- Created and maintained repeatable automated checks using Java and Selenium for consistent regression testing.
- Performed functional and regression validation for application changes and documented testing outcomes for the delivery team.
- Worked with developers and cross-functional stakeholders to reproduce issues, clarify requirements, and improve product reliability.
- Used structured problem-solving to investigate application behaviour, support defect resolution, and reduce recurring issues.
- Contributed to scalable application development, code optimisation, technical documentation, and timely project delivery.

Project Trainee

Robert Bosch Engineering and Business Solutions Private Limited

Jan 2022 - May 2022

- Collaborated with cross-functional teams in a professional software development environment.
- Supported project documentation, requirement communication, and structured problem-solving activities.
- Adapted to changing priorities and gained practical exposure to project management and Agile teamwork.
- Developed clear stakeholder communication and contributed to successful project delivery.

TECHNICAL SKILLS

Testing and QA

Manual Testing | Functional Testing | Regression Testing | Automation Testing | Test Case Design | Defect Reporting

Automation and Programming

Selenium | Java | Python | PowerShell | Batch Script

Data and Tools

SQL | Jira | Confluence | Git | GitHub | Bitbucket | Trello

Reporting and Collaboration

Excel | Power BI | Microsoft Office | Teams | SharePoint | OneDrive

PROFESSIONAL SUMMARY

QA-focused software professional with experience at Bosch in software development, automated testing, defect investigation, and Agile delivery. Skilled in Java, Python, Selenium, SQL, Jira, test documentation, and cross-functional collaboration. Currently pursuing a Master of Information Technology in Software Engineering and seeking a Software Tester or QA Engineer position.

TESTING STRENGTHS

Manual and Functional Testing

Understands test scenarios, expected results, defect reproduction, and validation of application behaviour.

Automation Testing

Uses Java and Selenium to create repeatable checks and support regression testing.

Defect Management

Documents issues clearly, collaborates with developers, and verifies fixes before release.

Agile Collaboration

Works effectively with cross-functional teams, changing priorities, and iterative delivery.

Technical Reporting

Communicates testing outcomes through clear documentation, Jira, Excel, and reporting tools.

EDUCATION

Master of Information Technology (Software Engineering)

Charles Darwin University

2025 - 2027 | Darwin, Australia

Bachelor of Engineering

The National Institute of Engineering, India

2018 - 2022 | GPA: 8.93 / 10.00

Dean's List recipient for three consecutive years.
